

## **Support Services**

The Support Services Division for Menomonie Fire Department is in charge of maintaining the EMS supply inventory. Menomonie Fire is currently an I-99 provider and we maintain three ambulances at this level. We also have all engines equipped at the Basic Life Support level.

We use a variety of vendors to meet our supply demands. We have a nice stock room at Station #2 where we keep all supplies. We maintain all equipment and supplies except for the Advanced Life Support (ALS) drugs. The pyxis system at Red Cedar Medical Center is used for maintaining our supply of ALS drugs.

This division is also in charge of community special events. We are involved in over twenty events per year. Some of the events include the Dunn County Fair, Winter Daze, PTO events, and Boy Scout events. We provide EMS and fire service for some of these events.

Lieutenant Chuck Mensing leads this division.
